

24 hour traffic and weather!!! Your darn right I'll pay for this service. I drive a tractor trailer for the USPS, we're on a time schedule (just like trains, planes and buses)and I need to get around the NYC/tristate area in the most time efficient manner. I do not need the NAB with all thier commercials and ineffiecent traffic reports telling us what we can list to. Tell them to improve there service or move over and let technology go by.
